

BeA Gas Technology

The Dynamik D90S

10 Dynamik Reasons for choosing BeA Fuel Cells

- Long shelf life - no leakage
- Specially cleaned propane/butane for non-stop working and less maintenance
- Extended winter working - operates at temperatures well below 0° C
- Fully synthetic oil in fuel for constant lubrication and no piston jamming
- High precision metering valve for lower fuel consumption and more shots - hence more nails!
- No noxious/unpleasant fumes exhausted!
- CFC free
- Quick, easy click-on valve
- Environmentally friendly BeA Dynamik Fuel Cell - just throw it away with your normal rubbish and load another one
- 40 g fuel cell compatible with most brands of gas nailers including the IM350

Just put it in
and away you go ...

Engineered for your needs and your success

TOOL CASE

The Dynamik D90S Gas Nailer comes in a sturdy case with the following contents:

- Dynamik D90S Gas Nailer
- Intelligent charger
- Two high capacity batteries
- Adapter sleeve for standard 40 g fuel cell
- Safety glasses
- Instruction manuals
- Wrench set

BATTERY

Powerful 2000 mAh battery allows approx 50 % more shots than the competition. Properly secured battery.

CHARGER

Discharge and charge feature extends battery life. Charging time approx 1.5 hours.

BeA Nailers are powerful professional tools that perform at optimum speed – smooth, fast and economically.

made in Germany

The new **D90S** has a clear appeal to end users with the benefits of short rugged metal magazine and best ergonomic, durable, light weight tool design. Perfectly balanced to reduce operator fatigue. Especially designed for easy and accurate nail setting in tight corners. Clearly quieter than the competition - no silencer needed!

TECHNICAL DATA

Type	D90S
Nail type	34°, paper collated
Magazine type	Rear loader
Magazine capacity	67 nails
Shots per second	2 - 3 nails
Mode of actuation	Single shot
Weight (without battery)	3.6 kg / 7.9 lbs
Dimension L/W/H, mm	383/120/384
Nail diameter, mm	2.9 - 3.4 (.113" - .131")
Nail lengths, mm	50 - 90 (2" - 3½")
Emission sound pressure at the workstation $L_{pA, 1s,d}$ dB	96

This tool conforms to the EC directive for machinery (98/37/EC)
